LADIESI LADIESI LADIESI Den's sall to read the polysyllament in this po REPORTANT TO FEMALES.

Dr. DEARAM.

o of the Loyal College of Phys Louisia, England; Graduate of Esserd's Hospital for PEMALE DISEASE nd a optional attendant of Furta, Lemico, New Or ans and Montreal Hospitale for the last ten year as opened an Office at the

Johnson House, Cleveland, where he will be happy to most all those who are af-licial with puts into and directle discuss.

His reminent is entirely different from the old dam, and is entire, silicacious and aboutive. His mea-classe are simply vegetable extracts and old they here have been used but by two other physicians America besides himsels. He has spect the great part of his life and thousands of dollars in obtains a few secrets in his profession. He tas the Urission all forms of disease. No charge I giving as honest and true statement of thier case.

housest and true statement of thier case.

To Young Mass.—He can prove to you in a few minmine that he is the early physician you ever treated
with that course this disease. For every palint who
will follow his directions, he will give Oue Hendred
Dollars it has take in curing this disease. So charge
made for consultation. Those at a flatance win
wish to consult the Douter may do so by sending a
small visit of urine by such, with mans, sox and acc
and he will unswer sain describe their case, and the
possibility of getting redist, by enclosing a reliable
to the case of the case of the case of the case.

A PRIMED IN BROKETEN IV. un the recipe of Dr. Starben Proct, of Co. he great home active, and has been mad in hits or CURE THAT LOATHSOME MALADY

DR. GOODALUS'S CATABRE EXMEDY .- It periotro to the very seat of this terrible Disease, and extern limits it root and branch, torever. Dr. Goodale is the Seat and only person who ever told the world what CATARRY really was—where it commenced and what would cure it. Dr. Goodale has now spent a Richtman in tailling with this full disease, exploring its se-cret ambush, and making known to the world the lact that Ostarra, which has for years defect the skill and research of medical men and authors in this country and in Europe, can now be cured with the ange uniform certainty that menting full-we night frepared by E. Goodale. H. D., how York, Price 84,72. Send stamp for a Famphlet

The Associated Press.

the New York State Association is Jacob G. Cuylet, of Albany. Efforte are now be-ing made to establish a Western Associat-ed Press Company, to look more closely to

he interests of Western papers. The pro-

ject was initiated a cat a year ago, but nothing definite has yet been accomplish-ed. The importance of the telegraph to

he commercial world, and, indeed, to all

mankind, can scarcely to over-estimated. Especially serviceable has it been to the

lovernment during the present war. Is-leed, it may be almost said that the warlis

carried on by telegraph. The General in-Chief at Washington, by means of the lit-tle instrument in his office, can within a

order sent thousands of miles in a moment.

The Copperhead organs of this State,

following the example of the treason print of this city, are doing their utmost to dis-

ourage enlistments for the hundred days'

ervice. An editor or a citizen who has

the heart to engage in this treasonable work could, without the least compune-

tion, if he were not a base coward, join the rebels in battle against the Union army.

The one hundred days' men are called for

to render aid to the great army now at the

head politicians are helping the rebels as much as if they should join them in open

ceed their infamous proceedings of the past, they are doing it now in their trea-

sonable efforts to keep men from going forward to the temporary relief of our great

The Cheunngo Botter Explesion

No verdict has been rendered by the

ury in this case up to the time we go to

press but it seems quite probable they will come in with the usual one in such cases—"mysterious accident," enormous pressure suddenly generated, some non-sense about superheated steam, &c., &c.—

From the evidence adduced from the ex-amination of disinterested practical men,

it appears that the boilers were not prop-erly braced, and exploded in consequence

This is, in plain English, the cause of the

disaster. A strain of nearly ten tons was

brought on each iron strap only five-eighthsof an inch sectional area, to which

the braces between the arches of the fire box and the flat shell of the boiler were

connected, and they naturally gave way. There were but thirty-two of these straps

instead of sixty-four-just half the num-ber called for in the specification, and the

disaster which occurred is the result of the emission. By the acceptance of the
